Ref.: Ms. No. NEUCOM-D-11-00632R2
Robust Extreme Learning Machine
Neurocomputing

Dear Mr. Horata,

We are very pleased to inform you that your paper

Robust Extreme Learning Machine with manuscript number: NEUCOM-D-11-00632R2

has been accepted for publication in Neurocomputing. Many congratulations!

We will check the files of your manuscript to see whether we have all the information needed to forward your paper to Elsevier. If not we will get back to you and ask you for the information we need.

Please note that accepted papers for special issues will be handed over to Elsevier and taken into production only when all the papers of the special issue have been received and collected.

If you have not yet supplied the source files for this paper (i.e., the individual text and figure files, as well as files containing the author photographs and biographies), the publisher (Elsevier) will contact you soon to supply that material outside of the system.

Thank you for submitting your work to our journal and do consider us again in the future.

Kind regards,

Guang-Bin Huang
Special Issue Editor

Tom Heskes
Editor in Chief
Neurocomputing

Comments from the Editors and Reviewers:

Reviewer #2: The authors have revised the paper carefully and now it is publishable in my opinion.
